

## BC HYDRO SUB STATION

56th Ave. & 232nd Ave. Langley, BC - 2000 + 2002 + 2014 + 2016

This sub station was coated with [ENAMOGRI](#)® - permanent Graffiti Proof coating on July 06, 2000. During the ensuing years BC Hydro maintenance staff removed graffiti on several occasions. On April 08, 2002, we were contracted to remove some graffiti.

### RED PERMANENT MARKER

We had a choice of using a solvent ie. Xylene which would remove the graffiti and not damage the coating or use our [GRAFFITI CLEANER](#) which is as powerful as an acetone but Envirosafe because it is non flammable and 100% biodegradable. We chose to use our [GRAFFITI CLEANER](#).

## GRAFFITI GONE

## BLACK SPRAY PAINT

## BLACK GRAFFITI GOING

## BLACK GRAFFITI GONE

The coating of **ENAMOGRIp**® looks like new and offers many more years of protection

### **2014 Follow-up**

ENAMOGRIp® is holding up.

### **2016 Follow-up**

After 16 years, while portions of the sub station have been subjected to graffiti, the ENAMOGRIp® still looks pristine.
